### Outlook for Sunday through Friday:

Gusty winds and elevated fire weather concerns may linger across northern California on Sunday as the weak storm system exits the region.

Little to no precipitation is expected through the week. A warming trend is expected for much of the upcoming work week, with moderate heat impacts likely developing by mid-to-late week, especially across the southern half of the state. Dry conditions and locally breezy winds could contribute to elevated fire weather concerns throughout the week, especially in the mountains, foothills, and southern deserts.

Today's forecast predicts [air quality improving in many locations with AQI in the moderate to unhealthy for sensitive groups range](#), however, the following counties are still expected to experience unhealthy to very unhealthy air quality: Lassen, Plumas, Sierra, Nevada, Placer, El Dorado, Amador, Alpine, Calaveras, Tuolumne, Mono, Madera, and Fresno.
